Governor Brumbaugh Seeks Good Representation at Local Option Conference

INVITATIONS RECEIVED HERE

Not Known That Any Will go from Here—Conference to be Held Next Tuesday Morning, Afternoon and Evening at Harrisburg.

Invitations have been issued to people in all parts of the state by Governor Brumbaugh, asking them to be present at the conference on the Williams County Local Option bill in Harrisburg, on the morning and evening of April 6, as well as a hearing on the bill in the House of Representatives on the afternoon of April 6. Invitations have been received in Charleroi, but so far as is known there will be no one from here. Governor Brumbaugh says in his personal letters:

"It is needless to impress upon you that I consider the County Option measure, which will receive consideration at this conference, one of the most important bills to come before this session of the legislature. I am very anxious that it shall be passed. I trust you will attend the conference and that you will urge your friends to accompany you to this conference."

Cordially yours,
M. G. Brumbaugh.

WILL FORMALLY OPEN NEW THEATRE HERE TOMORROW

Tomorrow the new Majestic theatre on Fallowfield avenue will be opened to the public, and on the first day as well as the second will be shown a splendid feature, "A Fool There Was." The theatre will be one of the finest in this part of the valley. The first show tomorrow will start in the afternoon at 1 o'clock. Harry Megown is the manager, and George Vaughn the machine operator.

SEVEN ARRESTED FOR TUESDAY DISORDERS

One Man Hard to Take to Lockup—Four Are Gobbled up by Police—With Starting, Battle at Home of One.

Some commotion was caused on the streets Tuesday afternoon at 5 o'clock when a drunken man was being taken to the lockup after having stuck his fist through a window of a McKean avenue restaurant. Two volunteer policemen attempted to care for the offender and this proved to be considerable of a task. A small crowd collected but two members of the police force arrived and soon had the man properly locked up. Burgess Woodward discharged him when he paid for the window.

The arrest was one of seven made on Tuesday. A little disorder occurred at the home of Andy McKeluck and A. Kauboriu had four arrested. Kauboriu asserts five were engaged in a game of cards, when someone mentioned playing for money. Kauboriu tells the police he objected and was set upon by the others who it is further told were more or less under the influence of liquor. They will have a hearing later before Burgess S. L. Woodward. In addition to these two others were arrested for drunkenness.

BODY OF THOMAS BOY RECOVERED FROM RIVER

Searcher at Roscoe Locates Lad Who Was Drowned Two Weeks Ago When by Accident He Was Pushed From Show Boat

The body of Orestes Thomas, the seven-year old lad who was drowned when he was by accident toppled into the Monongahela river at Roscoe March 17, was found Tuesday at noon at the bottom of the river not 50 feet from the spot where he was drowned. His body was recovered by Harry Hileman who with J. Thomas the boy's father was out in a skiff searching.

The Thomas boy with others of his own age was playing on the deck of the showboat, "Cotton Blossom" on the afternoon of Wednesday, March 17, when it is said he lost his balance from a slight jolt given him by a companion. He fell into the water, and his companions, frightened, left. Later his parents started to look for him and learned of the accident. The spot where the body was found had been gone over many times before. Since the day of the accident, J. Thomas, father of the lad, Harry Hileman, Ralph Garber and Jack Young have been at work almost constantly in search of the body. The water at the place is only about eight feet deep but a diver who was sent down in an effort to find the remains could find no trace of the child's body. Mr. Thomas and Harry Hileman had been dragging the river but a short time when the barbs of the grab hook caught the boy's clothing.

Coroner James T. Heffernan has been notified and will make an investigation.

The funeral services will be held Thursday afternoon at the home of the boy's grandparents, Mr. and Mrs. W. H. Thomas and will be in charge of the Rev. H. H. Ryland, pastor of the Presbyterian church. Interment will be in the Mt. Tabor cemetery.

WESTMINSTER GUILD HAS ITS REGULAR MEETING

Interesting Program in Study of "The Country of Mexico" Taken up At Tuesday Evening Meeting.

The Westminster Guild of the Washington Avenue Presbyterian church held its monthly meeting Tuesday evening in the home of Miss Eleanor Wyckoff. The president, Miss Eliabeth Elliott had charge of the meeting and a number of committees reported. Among the reports heard was one regarding the vacation camp which is to be established this summer. The topic for the evening was "The Country of Mexico," and the discussion was led by Miss Emma Clutter, assisted by Mrs. John Metz. A letter from Miss McDowell who is in the Washington hospital was read, expressing thanks to the girls for a spray of flowers sent her. The next year's course of study was outlined by Miss June Swan and the books were suggested that will be used. A number of visitors were present and a social hour followed the program.

HOLY WEEK SERVICES ARE BEGUN AT BAPTIST CHURCH

The first of a series of Holy Week meetings at the First Baptist church was held Tuesday evening. Much time was given up to prayer and consecration meeting. Several new members were present and some new members were received. Rev. W. G. Carl the pastor spoke briefly.

Meetings at the Baptist church will be held tonight and until Friday night inclusive.

SOLENN CHURCH PERIOD BEGINS WITH TOMORROW

Maunday Thursday to be Observed With Mass at St. Jerome's Church—Good Friday, Holy Saturday and Feast Days.

Tomorrow, which is known as Maunday Thursday in the church calendar will be solemnly celebrated at St. Jerome's Catholic church. Two hosts will be consecrated at the 8 o'clock mass. The second host will be carried in solemn procession to the side altar, where it will be adored all day. In the evening, there will be a sermon and devotions at 7 o'clock.

Friday, known as Good Friday, will be another solemn day, and at 8 o'clock the mass of the Pre-Sanctified will be held. Then will take place the reading of the Passion, according to St. John. Prayers for all the living and the dead will be said, and there will be adoration of the cross. In the evening there will be a sermon on the Passion, stations of the cross and prayer.

The blessing of the Parashall candle, the reading of the prophecies, and blessing of baptismal water and mass of the resurrection will be held on Saturday morning at 8 o'clock.

Then on Sunday, will take place the feast of the resurrection. Mass will be observed at 7:30, children's mass at 9, and high mass at 10:30. A special sermon will be delivered and special music will be rendered by the male choir under direction of Edward Wheeler. Mrs. B. Kleist is the organist.

RECEPTION HELD; EVANGELISTS GO

Last Meeting With Minges' People Present Held at First Christian Church

ORGANIZATION WORK PLANNED

The concluding affair in which members of the Minges' Evangelistic company, which has just closed a six weeks' evangelistic campaign here, was that of a reception at the First Christian church Tuesday night. Today all members of the company departed for Lexington, Ky. where on Friday a campaign will be opened at the Central Christian church.

Red ribbons were used to designate old members, white new members and blue friends of the church at the reception, and there were about 600 people present. The church was nicely decorated with palms, lilies and other flowers. The evening was spent largely in work of organization. The town was districted into six districts and committees named for making permanent and conserving the revival work. People were lined up for different organizations of the church, and pledges were taken. A reception that will be featured by a special form of entertainment will be held Friday night.

During Tuesday night's affair P. S. Wight and H. J. Bray of the evangelistic company sang a number of duets. Announcement was made that prayer meetings will be continued weekly on Thursday afternoons at

BOY FEARFULLY HURT BY TRAIN

Lad at Monongahela Has Both Limbs Severed When He Falls From Car

IS EXPECTED TO RECOVER

Eleven-Year Old Shows Remarkable Vitality When Taken to Hospital—Both Limbs Amputated—Hospital Folk Pleased With Condition.

John Esko, the 11-year-old son of Mr. and Mrs. Joseph Esko of Cambria, near Monongahela, was seriously and perhaps fatally injured Tuesday evening when he fell from a moving coal train within sight of his own home and before the eyes of his father. The boy is in the Memorial hospital at Monongahela where he is getting along well.

It was about 7:10 o'clock when young Esko jumped on a passing coal train. The conductor of the train had seen the boy running along the track and warned him to keep away but the youngster disregarded the warning. He missed his footing, as he jumped to the train and fell under the wheels, both legs being frightfully crushed. The train was quickly brought to a stop.

The elder Esko ran forward and picked up the boy who was still conscious. As quickly as possible, the child was removed to the Memorial hospital where it was found necessary to amputate both legs. Hospital attendants said that on account of his remarkable vitality and nerve he might recover.

CLASH RUMORS NOT CORRECT

These Reports Come From Legislative Correspondents Who Feel That Leaders Like to Be Informed of a Possible "Break" Between Governor and Legislature—Workmen's Compensation Act In Good Shape.

Harrisburg, March 31.—One of the chief diversions of Harrisburg legislative correspondents these days is to bring stories regarding a possible break between the governor and the republican leaders. One day it is workmen's compensation that may cause an estrangement, the next day the difference existing on child labor laws is mentioned, and finally it is stated that local option will bring about a parting of the ways.

A clash between the chief executive of a state and the leaders of the legislature is always interesting. Next to an actual clash between these two forces in point of entertaining reading is the story that a break is about to occur. Newspapers realize this, and they never lose an opportunity of anticipating an open rupture.

There will be no split in the Republican party this year as a result of any difference of opinion between the governor and the Republican leaders. The latter want the Republican platform carried out to the letter, and they have no desire to interfere with the governor in trying to get through his personal platform. There may be conflicting opinions as regards details of the child labor law, but every indication points to an ironing out of such differences to the satisfaction everybody.

Compensation Law Sure.
The workmen's compensation law will be passed probably without the semblance of a hitch. Following a recent conference in which Governor Brumbaugh, Republican State Chairman Crow, Attorney General Brown, Senators Vane and McNichol attended, it was decided that all hands have agreed on the bill prepared by the attorney general and presented in the state by Senator Crow.

A factor that had considerable

REP. RICHARD A. BALDWIN.
Lawrence County Member, Known as "Fighting Dick."

ght in deciding the Republican organization senators to fall in behind governor's compensation bills was action of a number of large employers in withdrawing their opposition. These acceptances were for the part unexpected, and led both governor and Attorney General to carry their policy of compromise and conciliation to a length they would otherwise not have disposed to do.

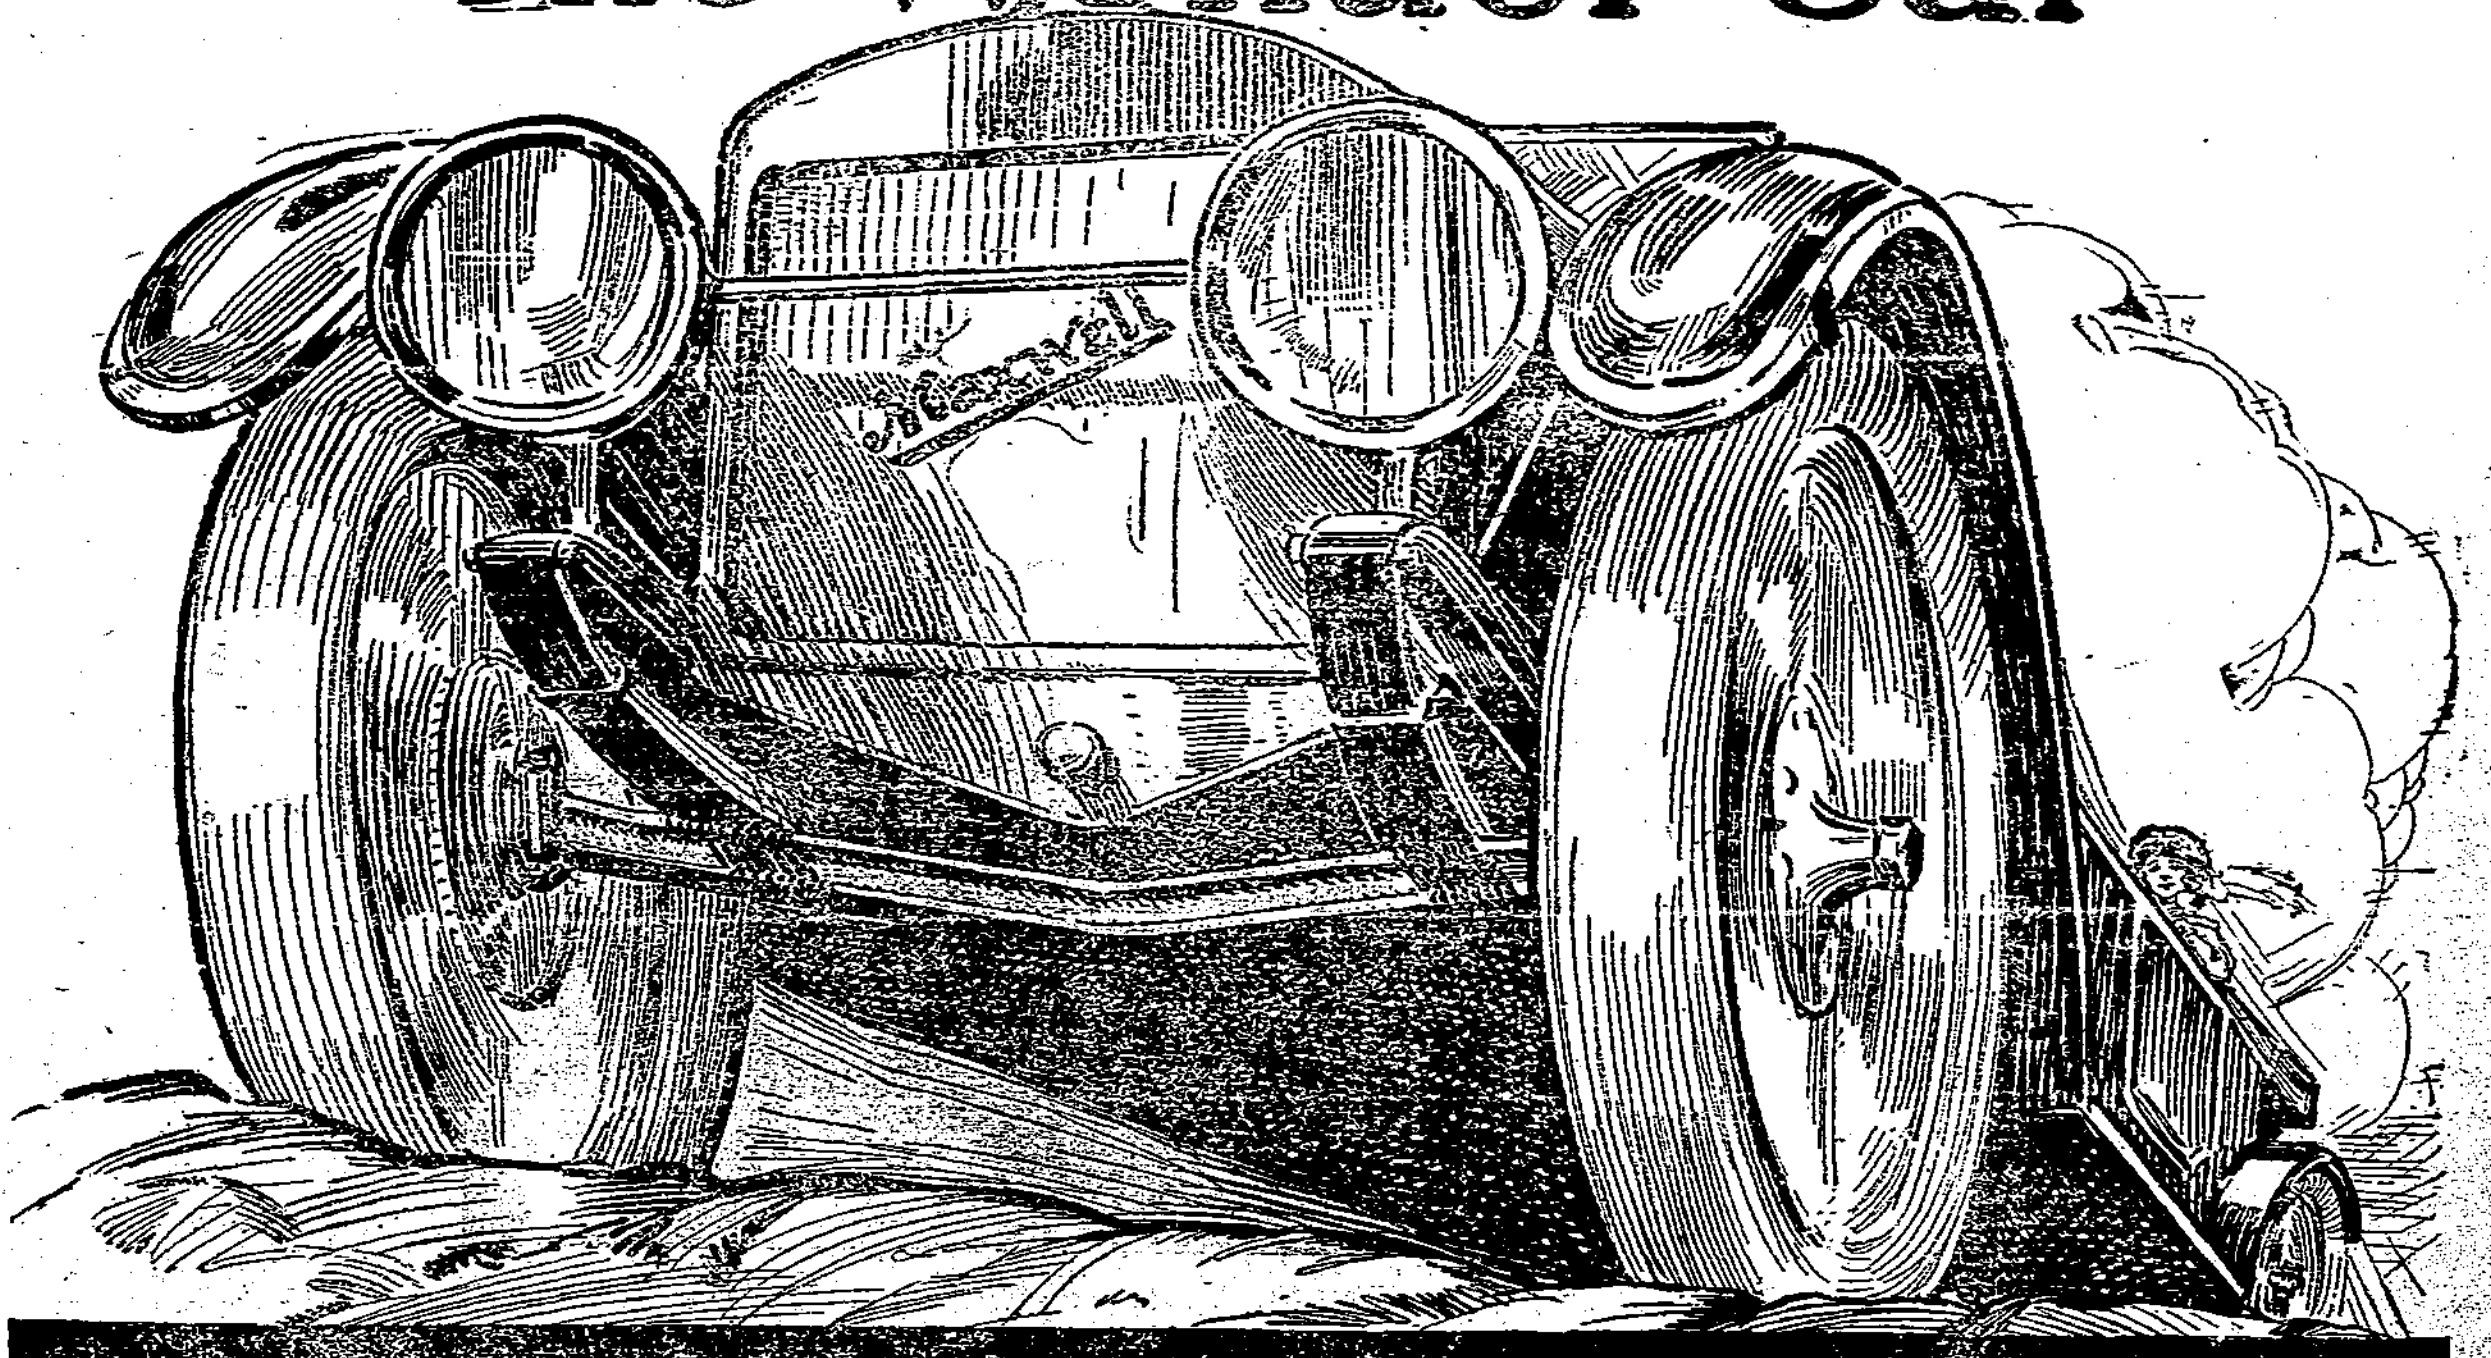

of only was this the case, but the governor and Mr. Brown declared that they were prepared to meet all the objections that might be raised in the way of adjusting points in dispute, adding only that the changes asked did not impair the character of proposed act to the degree of making it a sham and a farce.

idence in the "acceptance" of compensation measure has reached the stage where it is asserted that her public hearing will not be necessary. Amendments not made in the bill will be made upon the floor of the house, as it is not probable that a measure made up of seven rate bills will come before the house in perfect form from the judicial committee's hands.

The governor's measure, however, is subjected to an unusually thorough scrutiny and revision after it is introduced, consequently it will probably be free of typographical errors than that with a group of bills of its size. Governor Brumbaugh's reliance on good faith of Republican organization senators is such that he has directed his attention to the child labor introduced in the house by Representative Edwin R. Fox, of Philadelphia, and with a determination to meet opposition, not by wielding big stick, but with a course of patient similar to that which he has won the necessary support for his compensation plan. The bill was heard before the new bill repealer is about ready for consideration by the legislature. Railroad companies made a good session and no doubt would have been in the two committees. A petition containing 262,000 names asking the law of 1911 be repealed was filed, together with editorials in 500 newspapers to the same effect. The bill will be reported out of the committee and considered for passage either the week of March 31 or 12.

Maxwell 11

"The Wonder Car"

You can own an exact duplicate of "Wild Bill" Turner's or Billy Carlson's record-breaking Maxwells

Think of owning one of these same Maxwells—think of driving it wherever you want to—over any kind of roads—up any kind of hills, wherever four wheels can go, the same car for \$695.

Remember, every 1915 Maxwell is an exact duplicate of the regular stock Maxwell Touring Cars in which "Wild Bill" Turner broke the world's record up Mt. Hamilton, 21 1/2 miles in 48 1/2 minutes, beating the world's record by 16 1/2 minutes, and "Billy" Carlson broke the world's record up Mt. Wilson, California, making nine miles (up an elevation of 6,000 feet) in 29 minutes and 1 second, beating the previous world's record by 13 minutes.

That's the kind of hill-climber you get when you get a Maxwell.

Now about speed and endurance—here are some recent Maxwell Racing Car records:—

Barney Oldfield in a Maxwell Racing Car broke the world's non-stop record at Corona, California, for 300 miles, averaging 86.3 miles per hour. Think of it—not a stop made!

Then, right on top of this marvelous motor record, along came "Billy"

Carlson in his Maxwell Racer and made still another 300 miles non-stop record in the San Diego race. Again a Maxwell Racer ran 300 miles without a stop!

These Maxwell Racing Cars are built by the same Designers, the same Chief Engineer, that build the regular Maxwell Cars; and the same Maxwell Laboratory Tested Steel is used in them that is used in the regular stock Maxwell Touring Cars.

But, aside from hill-climbing and speed, power and endurance records, here are some of the facts about Maxwell comfort,—Maxwell special features,—Maxwell beauty and Maxwell service.

Read This List of Expensive Features. The 1915 Maxwell Has These Features And Many Others.

Attractive Streamline Body

Pure streamline body; graceful crown-top, with all rivets concealed. All the grace, style and "snap" that you will find in any of the highest priced cars.

A High-Tension Magneto

Nearly all the high priced cars have high tension magnetos. A high tension magneto gives positive ignition. The Stumm magneto, with which the Maxwell is equipped, is recognized as one of the best magnetos made.

Left Side Drive—Central Control

Left side steer with gear shifting levers in center of driving compartment—center control—has been accepted by leading makers of expensive automobiles as the safest and most comfortable for the driver; that is why the Maxwell has it. The Maxwell is so easy to drive and control that a child can handle it.

Three-Speed Sliding Gear Transmission

All high priced cars have a sliding gear transmission. It is costly to make, but it is the best. If the motor has the power, sliding gears will

pull the car out of any mud or sand. The Maxwell has a three-speed selective shifting gear transmission because Maxwell engineers do not consider any other type to be worthy of the Maxwell car.

Double-Shell Radiator with Shock Absorbing Device

The Maxwell radiator is of handsome design, gracefully curved, and built to be trouble proof. It is the exclusive double shell type and has ample cooling capacity. The radiator is mounted to the frame by means of a shock absorbing device on each side, which reduces the radiator of all twists and distortions of the frame caused by roughness of the road. The shock absorbing device also minimizes the possibility of radiator leaks.

The Roomy Full 5-Passenger Body

The 1915 Maxwell has a full grown 5-passenger body. The front seat is adjustable, you can move it three inches forward or backward. This makes the car really comfortable for the driver. No cramped legs for tall people or uncomfortable reaching for short people. Most drivers' seats are made to fit anyone—so, no one.

Low "Up-keep" Carburetor

The carburetor used on the Maxwell was especially designed for it after long and severe tests under every conceivable condition. Economy tours conducted by hundreds of dealers and owners in different sections of the country have proved its efficiency, its quick response to throttle and its extremely low consumption of gasoline. It has been termed the "low up-keep" carburetor.

Irreversible Steering Gear

The greatest margin of safety has been provided in the steering gear of the 1915 Maxwell. The Maxwell irreversible steering mechanism is of the expensive worm-and-gear type and its superiority over every other type lies in its many adjustments. At no time is more than a fourth of the bearing surface of the gear which operates the worm in use. When needed, a new bearing surface may be had by adjusting the gear a quarter of a turn. In short, the Maxwell steering gear has four times the adjustment of any other kind.

Heavy Car Comfort

What surprises most people is the smooth, buoy-

ant riding qualities of the Maxwell. The spring suspension of the 1915 Maxwell is the same costly combination of long semi-elliptical front springs and the three-quarter elliptic rear springs that is used on most heavy weight, high priced cars. The Maxwell offers you every essential of the highest priced machines at a fifth of their cost.

One Size of Tire—Anti-Skids on Rear

The Maxwell car is one of the easiest cars in the world on tires. Maxwell owners carry but one spare tire and but one size of spare tubes. Economical 30 inch x 3 1/2 inch tires are used all around. A famous make of anti-skid tires are supplied on rear wheels.

A Dependable Electric Starter

For \$55 extra, you can have your Maxwell delivered equipped with the famous Stumm-Hoff electric starter. This starter is efficient, trouble proof and easily operated.

And the Maxwell is completely equipped from the clear vision, ventilating windshield, at the front to the spare tire carrier at the rear. When you buy a Maxwell you have nothing extra to buy.

The Maxwell Company's Guarantee of Service to Maxwell Owners

No other automobile is backed by a more reliable service than that guaranteed every Maxwell owner. More than 2,000 Maxwell dealers in every part of this country—are always ready to give expert advice, to make adjustments, and to supply new parts at reasonable prices.

This splendid Maxwell dealer service organization is perfected and completed by the chain of Maxwell owned and Maxwell operated Service Branches. Sixteen great Maxwell Service Stations are so located throughout the country that a Maxwell dealer can supply any part for an owner within a few hours if not in his stock. Maxwell Service is one of the great advantages enjoyed by Maxwell owners.

Order a Maxwell from us now, and when you want it delivered, we will give you your car—not an excuse on delivery day

SUFFRAGE LEADERS CALL BIG RALLY

Party Lieutenants From All Parts of State Will Meet in Harrisburg on April 8th

LIVELY CAMPAIGN ASSURED

Women Have Perfected a Party Organization That Covers Every County in the State

Plans for the State-wide campaign which the suffragists of Pennsylvania are to wage this year, in their efforts to get the suffrage amendment approved at the polls on Election Day, will be thoroughly discussed at the Spring conference of the Woman Suffrage Party in Harrisburg, on April 8th and 9th.

Every County in the State will be represented at this conference and it is expected that the assemblage of women leaders from all parts of the Commonwealth will be an eye-opener to those who have failed to note the development of the compact organization which the women have been quietly building up during the past five years. For, despite the publicity which has been given to the suffrage movement during that period, comparatively few of the voting citizens of Pennsylvania realize that in the Woman Suffrage Party the suffragists have perfected a State-wide organization built upon the most approved party lines, with branches in 67 counties, and with legislative, borough and ward leaders in every district where there are votes to be won.

The woman at the head of this organization is Miss Hannah J. Patterson, of Pittsburgh. Associated with her today, as County Chairman and legislative leaders, are representative women from every part of the State—all keen thinkers and enthusiastic workers for the cause to which they have pledged their support.

It is upon this body of women that the success of the suffrage campaign very largely depends, and the results of their conference at Harrisburg next month will be watched with keen interest.

One session of the conference will be devoted to a full discussion of campaign propaganda. New literature, publicity, the tour of the Women's Liberty Bell and the extension of the "suffrage garden" idea are some of the concrete subjects that will be taken up. Another session will be given over to a discussion of the general political situation with specific attention to each county's relation to the whole.

More than two hundred of the Woman Suffrage Party's County, legislative district and borough leaders will go to Harrisburg for the conference.

DR. SCHAEFFER FOR SUFFRAGE

State Superintendent of Public Instruction Says He Will Vote For It at the Polls

During his talks before the various Teachers' Institutes of the State, Dr. Nathan C. Schaeffer, State Superintendent of Public Instruction, has come out strongly for woman suffrage. At one of his recent lectures before the City Teachers' Institute at Harrisburg, he said:

"When the opportunity comes to vote on woman suffrage in Pennsylvania, I will embrace it. I have been in States where women have the vote and I want it in Pennsylvania."

Dr. Schaeffer made the same declaration before the Teachers' Institute of Wilkesburg.

Suffrage a Good Neighbor.

Every time a western state has won suffrage for itself it has helped win it for the states adjoining. From every state in which it is tried it has crossed the border into the states nearby, states that is to say, that have the best opportunity to watch suffrage in operation.

From Wyoming it went to Colorado and to Utah and Idaho; from Colorado it made way into Kansas; from Idaho it traveled on into Montana and into Washington. Oregon lingered unpersuaded a year too long, so suffrage jumped over her into California. Whereupon Oregon followed suit, as did the other contiguous states of Nevada and Arizona.

No state or country that has ever given suffrage to women ever takes it back. On the contrary, suffrage in operation makes converts. It spreads.

The Very Person.

Father—Politics are too complex for you, my dear. It would take all night to explain the ballot to you.

Daughter—All right. I'll have George do it the next time he calls.—Puck.

Almost one-fourth of the entire population of the United States is involved in the solution of the woman suffrage question in these four great Eastern Commonwealths. If woman suffrage should carry in all four States women can use "direct influence" on the 206 out of the 531 electoral votes that make up the Electoral College and name the next President of the United States. They already use direct influence on 91 electoral votes.

For months Charleroi readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit?

Mrs. Louis Vellety, 205 Prospect avenue, Charleroi, says: "I had been troubled for years with dropsical swellings in my feet and ankles and I found it hard to get around. I also had a dull, heavy pain in the small of my back and I couldn't do my housework. I seemed to be worse in the morning and I often got so sore that I couldn't bend. Rheumatic pains darted throughout my body and I felt tired all the time. I doctored, but got no relief and when I was advised to try Doan's Kidney Pills, I procured a supply at Piper Bros. Drug Store. Two boxes relieved me. I now take Doan's Kidney Pills off and on when I am not feeling well and they never fail to help me."

Notice is hereby given that an application will be made to the Court of Common Pleas of Washington County, Pennsylvania, on Monday, the 12th day of April, 1915, at 10 o'clock A. M., under the "Act to provide for the incorporation and regulation of certain corporations" approved April 29, 1874, and its supplements, by Joseph Nandor, A. L. Dubinsky, Andrew Chacko, August Tomajko, and Alex Koscelnik, for the charter of an intended corporation to be called "Independent Slavok Beneficial Society of Charleroi, Pa.", the charter and object of which is the maintenance of a society for beneficial and protective purposes to its members from funds collected therein, consisting principally of the collection and payment of sick and death benefits, and for these purposes to have, possess and enjoy all the rights, benefits and privileges conferred by said Act and its supplements. The certificate of Incorporation is now on file in the Prothonotary's Office.

"It is easy to use and quick to respond. No work. Just apply. It penetrates without rubbing."

Read What Others Say:

"Have used your Liniment very successfully in a case of rheumatism, and always have a bottle on hand in case of a cold or sore throat. I wish to say I think it one of the best of household remedies. I would not have used it only it was recommended to me by a friend of mine who, I wish to say, is one of the best boosters for your Liniment I ever saw."—J. W. Fuller, Denver, Col.

"Just a line in praise of Sloan's Liniment. I have been ill nearly fourteen weeks with rheumatism, have been treated by doctors who did their best. I had not slept for the terrible pain for several nights, when my wife got me a small bottle of the Liniment and three applications gave me relief so that I could sleep."—Joseph Tamblyn, 615 Congress Street, McKeesport, Pa.

NAMES OF OUR EARTH.

Was Called Ge by the Greeks and Terra by the Latins. Answering the question, "Who named our planet the earth? Why could it not have had a romantic and beautiful name such as Astronomeus have given to the planets Jupiter, Venus, Mars or Neptune? Our planet alone has the utilitarian, but not graceful name the earth," Edgar Allan Poe said in the New York American.

The good Anglo-Saxon folk gave the name earth to their world, and the British divided the word down to earth. But is this not fully as romantic as the name Ge, given to it by the Greeks, and Terra by the Latins? Ge is indeed commonplace, but Terra is highly romantic.

Classic mythology tells that Terra was one of the most ancient deities and wife of Uranus and mother of Oceanus, the Titans, Cyclopes, Giants, Thea, Rhea, Themis, Phoebe, Tethys and Mnemosyne. And she is the same deity as Tellus. But Tellus was the most ancient goddess after Chaos. In later mythic ages she was called by the exceedingly romantic names Cybele, Rhea, Vesta, Ceres, Tithea, Roma, Dea, Proserpine and others. And when sailing under the euphonious titles she passed through many very romantic episodes. At times she got into romantic difficulties when circulating around with other goddesses and gods.

POWER OF ELOQUENCE.

Financial Effect of Whitefield's Sermon on Ben Franklin.

Whitefield made seven visits to America. He brought great blessings to our land. Whitfield wrote of him thus:

The flood of emotion, deep and strong, troubled the land as it swept along. But left a result of holier lives.

In Philadelphia he preached with such effectiveness that the dancing rooms were discontinued, and the ball and concert rooms were shut up "as inconsistent with the gospel."

Benjamin Franklin tells that in Philadelphia 30,000 heard him with ease. Ben was caught with the matchless delivery of his sermons. "I happened in a meeting in the course of which I perceived," writes he, "that he intended to finish with a collection, and I silently resolved that he would get nothing from me. I had in my pocket a handful of copper money, three or four silver dollars and five pistoles in gold. As he preached I began to soften and concluded to give the coppers; another stroke of his oratory made me ashamed of that and determined me to give the silver; and he finished so admirably that I emptied my pockets wholly into the collection dish, gold and all."—Christian Herald.

Spanish Boys' Game.

Spanish lads love a game which they call "Hobbybull," and it has something on the American kiddies' hobbyhorse, according to those who have seen it. The boys of Malaga and other Spanish cities find an immense amount of excitement and amusement in mock encounters with the hobbybull, which is merely a framework mounted on wooden wheels and has a pair of horns lashed to its forward end. Armed with a scarlet cloth, one of the boys infuriates the hobbybull, while another operates the "animal."

If the matador has talent in the art of taunting and teasing, and the other lad is spirited the game may become serious. Boys in training to become matadors practice regularly with the hobbybull and consider such play a part of their training.—Philadelphia North American.

Qualities of the Topaz.

The name of the precious stone inserted in the ring of Gyges has not been handed down to us, but it is probable that it was the topaz, whose wonders Philostratus recounts in the life of Apollonius. An attribute of the sun and of fire, the ancients called it the gold magnet, as it was credited with the power of attracting that metal, indicating its veins and discovering the treasures. Heliodorus in his story of Theagenes and Charicles says that the topaz saves from fire all those who wear it and that Charicles was preserved by a topaz from the fiery vengeance of Arsaces, queen of Ethiopia. This stone was one of the first talismans that Theagenes possessed in Egypt. The topaz at present symbolizes Christian virtues—faith, justice, temperance, gentleness, clemency.

Our Moral Codes.

"Our moral codes were invented not to prepare men for heaven or for Utopia. They were invented by men who were none too good themselves to protect themselves from people who were not much worse. There are great differences in human beings as to the amount of knowledge and wisdom which they possess, but there is small difference in regard to the amount of goodness or baseness that they manifest."—Mowry Saben in Forum.

A Suffering Case.

"Those detectives have just arrested as osteopath as a felon."

"That must have been a painful duty."

"Why painful?"

"Didn't it give them a bone felon on their hands?"—Baltimore American.

Sure.

"Why do we always speak of the sil very moon?" asked the boob.

"On account of its quarters and halves, I suppose," replied the cheerful idiot.—Cincinnati Inquirer.

All human things of dearest value hang on slender strings.—Edmund Waller.

The Black Bear.

It is the common idea that a black bear will hug people to death. This is, of course, a mistake. A bear almost invariably makes its attack by striking a stunning blow with the fore paw and tearing with his very formidable claws. A large black bear can strike a terrific blow and is capable of knocking down and mortally wounding a full grown caribou. When their enemy or prey is forced to the ground they usually bite them about the head and neck until death ensues. They are remarkable for the strength of their jaws and have been known to run through the skull of a man. Many animals that are generally be counted on not to attack man do so when provoked or suddenly crowded, wounded or cornered. The black bear is no exception. The more I see and study animals the more I am impressed with the fact that there is no exact rule what the same species of animal will do under similar circumstances, as they seem to vary as much in mind and temperament as the individual. Although one might predict with a very good average of correctness, there would always be the exception.—The Game Fields of America.

On Having the Blues.

If without any real cause of worry, says a writer in the Capulet Review, you wake up two or three consecutive mornings feeling that the world is an unsatisfactory place probably you had better go to the doctor. He won't be apt to give you anything worse than rhubarb and soda. You might even try it before going, and if it is a sunny day try to glory in it, or if it is a rainy day try to think how cozy it will be by the fire, or if you have to go to an office how good it will be to have a day for steady work, when clients and customers are not apt to come in.

In similar vein Kipling prescribed for a case of the blues, which he referred to as a "come-again bump," you remember, common to "kiddies and grownups too." When the hump rests heavily upon you, said Mr. Kipling—Don't fret at all about the blues by the fire. But take a large nose and a shove, also And dig till you gently perspire.

Where Mirrors Are Forbidden.

The followers of Jean de Labadie still flourish in some parts of Holland. The tenets of the Labadists forbid the use of mirrors as tending to foster vanity and a love of fine clothes. This self denying ordinance is all the more creditable, seeing that, next to the founder, the leading figure among the Labadists was a woman. When Jean de Labadie left the Reformed church and founded a sect of his own orthodox hate made it impossible for him to read his flock Anna Maria van Schurman came to the rescue and enabled the Labadists to settle at Wieuwerd in Friesland. Her eloquent sermons brought many converts to the new faith, for she was a pioneer of women's rights.—London Chronicle.

First Steps in English.

The police in Calcutta caught a native coming out of a shop early in the morning and arrested him on suspicion. The man had on the previous evening concealed himself inside the shop and had employed the time until morning in fitting himself with a complete suit of clothes, including a white shirt, with studs and links, a red tie, carefully put on, black socks, a pair of patent leather shoes, watch and chain, handkerchief, pocket knife, straw hat and cane. He even went the length of writing his name inside the hat. On being arraigned before a magistrate he gave the queerest excuse imaginable. He said that he wanted to learn English and, as a preliminary step, thought it best to dress like an Englishman.

What He Wanted.

Arthur H. Engelbach in his collection of anecdotes of the bench tells this story about Lord Graxfield, who was among the last of the Scotch judges who rigidly adhered to the broad Scotch dialect.

"Hae ye any counsel, mon?" he said to Maurice Margor when placed at the bar.

"No," was the reply.

"Do ye want to hae any appointment?" continued the judge.

"No," said Margor. "I only want an interpreter to make me understand what your lordship says."

Greenland Summers.

Things grow very fast in the short Greenland summer. As soon as the snow melts off in many places the ground is covered with a vice which bears a small berry something like a huckleberry. It is nearly tasteless, but it is juicy, and the natives are fond of it.

To the Point.

Her Father—Young man, I must ask your object in coming here so often Young Man—I love your daughter, sir. She is adorable, a queen. Her Father—Then, I take it, your object is to come her subject. Very well, she's yours.—Boston Transcript.

Insects in Flight.

Motion pictures of insects in flight show that they regulate their speed by changing the inclination of their wings rather than by altering the rapidity of their motion.

Unpleasant.

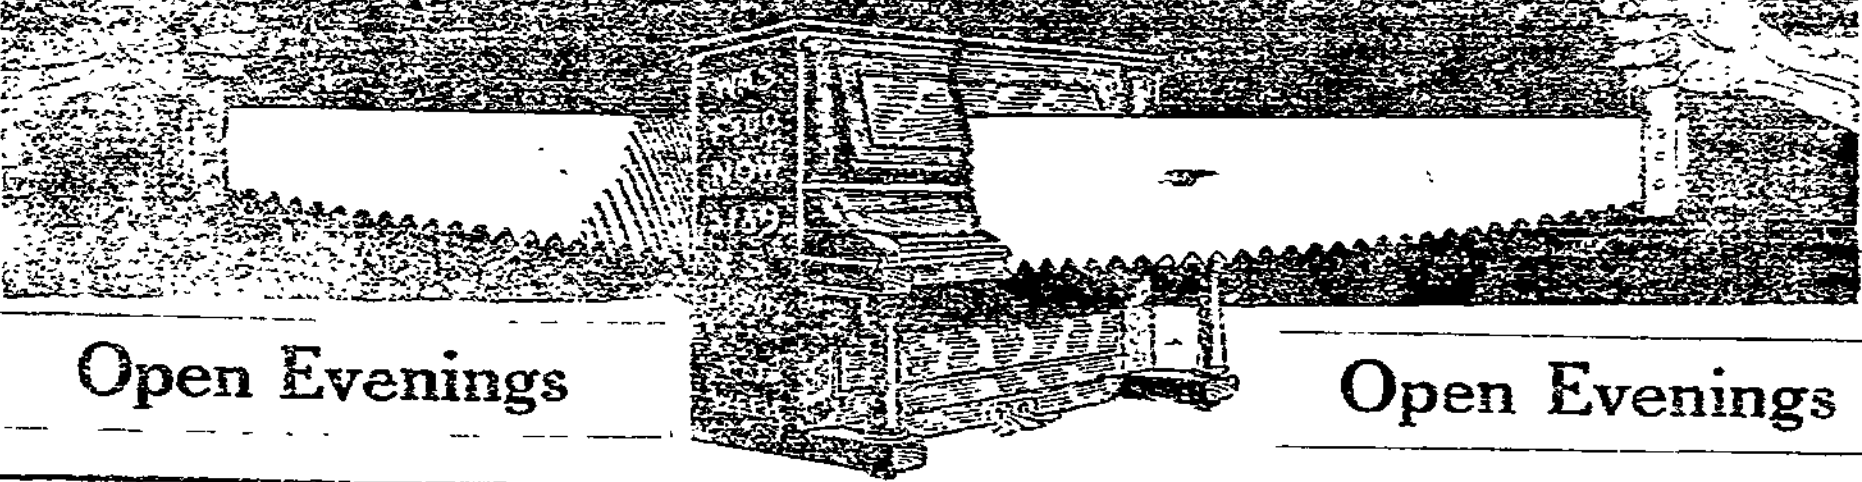

"The man who tells us of our faults is our best friend," quoth the philosopher.

"Yes, but he won't be long," added the mere man.—Pittsburgh.

Perhaps It Is.

"If you want a thing well done"—"Get an expert to do it for you. Ain't that more sense than what you were saying?"

There Is Hardly A Woman Who Does Not Rely Upon Lydia E. Pinkham's Vegetable Compound.

I had inflammation, in the back of my neck and a weakness all caused by female trouble. I took Lydia E. Pinkham's Vegetable Compound with such excellent results that I am now feeling fine. I recommend the Compound and praise it to all I shall be glad to have you write me for a letter. There is scarcely a woman who does not use your medicine. Mrs. JOHNSON, R. No. 4, Box 10, Chicago, Illinois.

Experience of a Nurse. Poland, N.Y.—"In my experience as a nurse I certainly think Lydia E. Pinkham's Vegetable Compound is a great medicine. I wish all women with female troubles would take it. I took it when passing through the Change of life with great results and I always recommend the Compound to all my patients if I know of their condition in advance. I will gladly do all I can to help women to know of this great medicine. Mrs. HORACE NEWELL, Poland, New York, N.Y.

Palace of the Popes. The Vatican is the papal palace and derives its name from the hill on which it stands, the Mons Vaticanus, one of the seven hills of Rome. It is a collection of magnificent buildings, which occupy a space of 1,151 by 767 feet. The most ancient of the present structures dates from the time of Nicholas V., about 1447. The various popes from time to time added new buildings, in which are many works of art of a historical character. The Sixtine chapel, one of the Vatican edifices, contains Michelangelo's first masterpiece in painting, "The Last Judgment." The Pauline chapel possesses Michelangelo's frescoes of "The Conversion of St. Paul" and "The Crucifixion of St. Peter."

Troops and Winter. When Napoleon went to Moscow and back it was found that the French soldiers stood the intense cold better than the Poles and north Germans. It is quite wrong, by the way, to suppose, as is often done, that that fatal winter set in early with exceptional severity. Napoleon invented that explanation to palliate the disaster into which he plunged his army. But the autumn was so exceptionally mild that the peasants believed that God was forgiving Napoleon, and the first snowstorm did not come until Nov. 6, and although late arrival.

Made Over. "I'm a looker," declared the 19-year-old man. "My arm feels loose, my back seems twisted, and my left leg is shaky. What would you advise?" "I think I'd get myself rebuilt," suggested the automobile manufacturer. Kansas City Journal.
